- A 5-year running archive is accessible to subscribers only. To gain access, click on link above and then using the email you subscribed under register a password towards the right hand side of the page.

ABOUT BOOK_ARTS-L

- Subscribers, to post a message send to: book_arts-l@listserv.cc.emory.edu
- Full FAQ with detailed instructions
- Put ALL commands in body of message and send to: listserv@listserv.cc.emory.edu
- To Subscribe send:
subscribe Book_Arts-L "Your full real name"
Leave out the "" . All subscription requests must include the full real name or they will not be approved by the moderator.
- For daily digest: set Book_Arts-L mail digest
- To unsubscribe: unsubscribe Book_Arts-L

OTHER RESOURCES

- **NEW** The Multi-lingual Bookbinding/Conservation Dictionary Project: The goal of this project is to combine, in one place, all the known bookbinding and book conservation terminology, in as many languages as possible.
- Other Book_Arts-L Projects:
 - Liberated Books: New uses for discarded books...

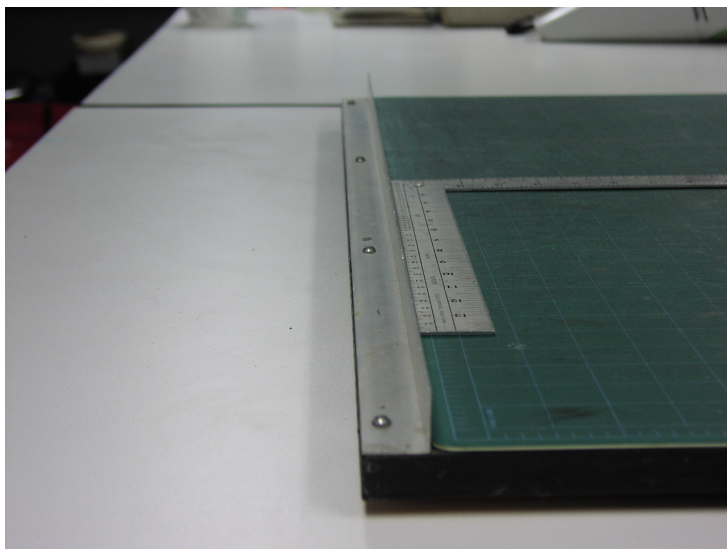

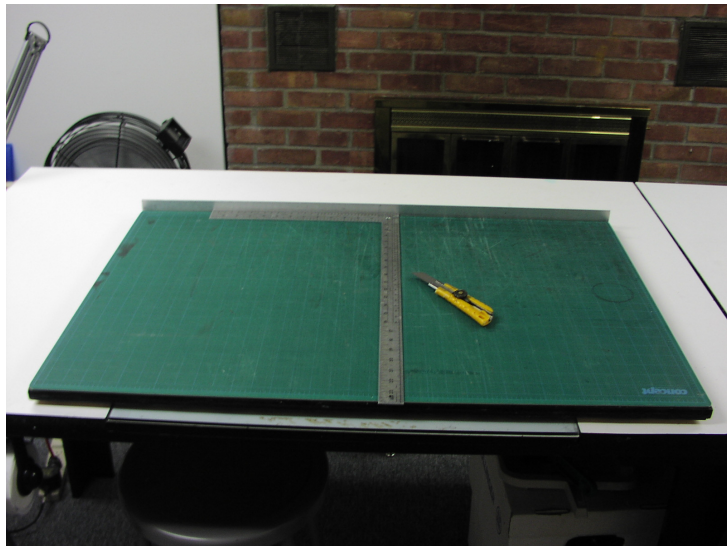

A Simple Cutting Jig

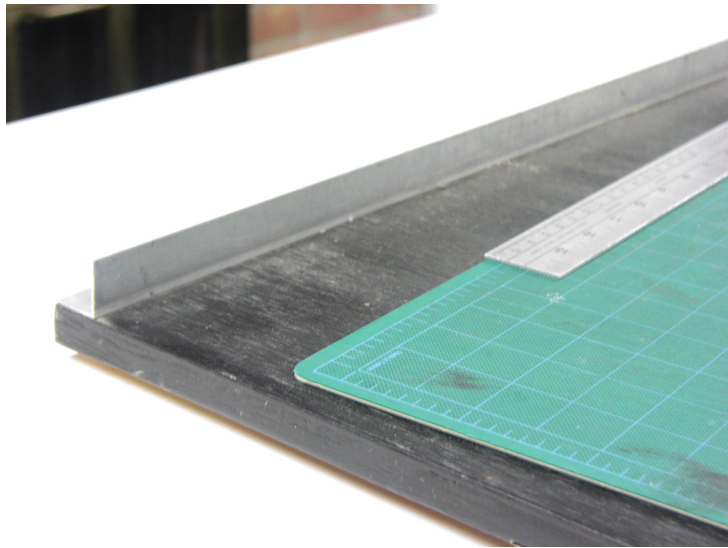

I built this cutting jig long before I had a Kuttrimmer and it continues to serve me well. Advantages are low cost and the ability to cut materials "square" – this goes for paper, as well as board (and just about any other material).

Supplies Needed:

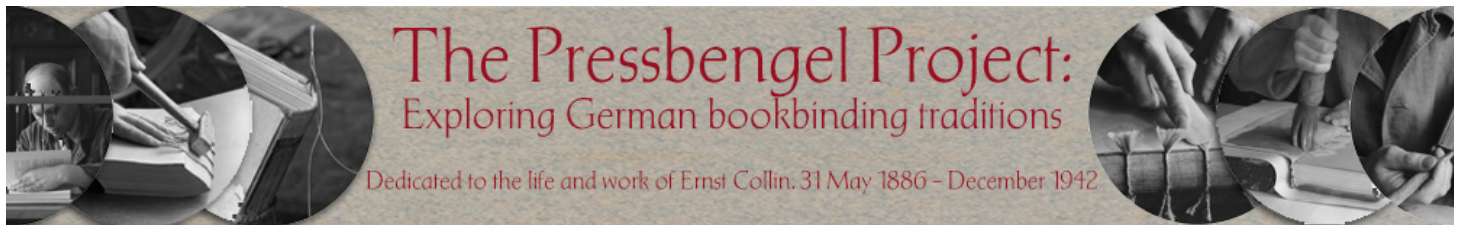

- 1/2" plywood with rubber "feet" screwed into bottom
- Aluminium "L" channel (Available at hardware stores)
- Large cutting mat
- "L" square
- Box cutter

An option is screw the "L" channel directly to the bench. I chose not to do this for greater flexibility in bench use, i.e. from both sides...
